# DP1-Kepler

The Bar Feeder by Drehmag

*Patents Pending*

**Innovation - Flexibility - Versatility**

## Innovation - Flexibility - Versatility

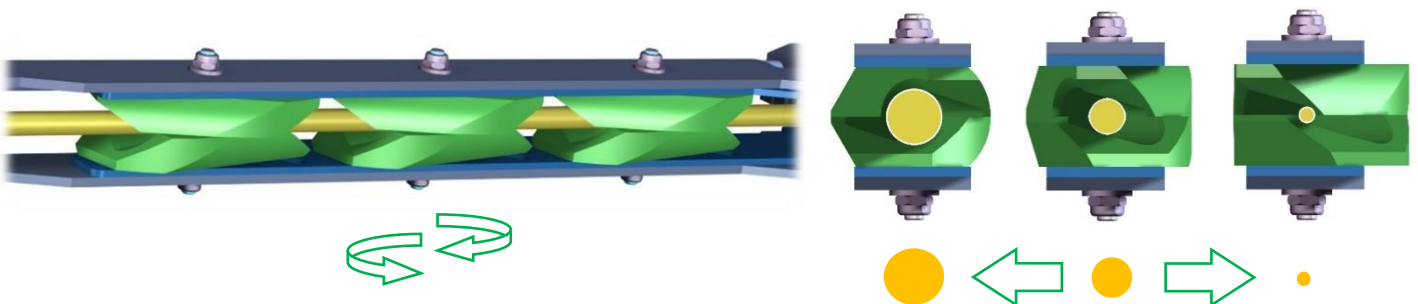

DP1-Kepler bar feeders for multi-spindle lathes provide unique solutions for automatic bar loading:

**Innovation:** New bar guiding and centering systems.

**Flexibility:** *"Twist and Go!"* – Bar guiding channels adjustable in few minutes for any diameter.

**Versatility:** Designed for all kinds of multi-spindle lathes and bars.

### *"Twist and Go!"* - Adjustable Guiding Channels

*Technical Data:*
